Errors in Staff Management Portal :

1. The Employee Name button currently accepts both uppercase and lowercase alphabets. However, there is an issue when entering names in mixed cases, such as "MaNjUnATh."

To resolve this, the input should be restricted to one of the following formats:

- The first character should be capitalized, followed by lowercase letters (e.g., **"Manjunath"**).
- All characters should be in uppercase (e.g., **"MANJUNATH"**).
- All characters should be in lowercase (e.g., **"manjunath"**).
